## Capabilities Brief

### CORE COMPETENCIES

- Precision CNC Turning and Milling
- Prototyping to high volume production
- Engineering services
- Comprehensive post-operation procedures (deburring, assembling, engraving)

### CORPORATE DATA

**UEI:** EUJLUBG5JED7

**CAGE:** 3Y5E7

**NAICS:** 332710 Machine Shop, 332721

Precision Turned Product Manufacturing, 332510, 332911, 332999, 333514, 333517, 333992, 333993, 333995, 333996, 333998

### DIFFERENTIATORS

#### Client-Centric Innovations:

Continuously evolving services and products to meet client needs, fostering long-term partnerships and high satisfaction levels.

#### Proprietary Product Lines:

Specializing in products for the printing and packaging industries, ensuring industry-specific functionality and performance.

### CAPABILITIES NARRATIVE

Olympic Tool is a leading precision manufacturing partner specializing in custom parts and components for a variety of industries, including our proprietary line of products designed for the printing and packaging sectors. With advanced technology and a commitment to quality, we deliver exceptional solutions tailored to meet our clients' exact specifications.

### PAST PERFORMANCE

Olympic Tool Company maintains strong partnerships across various sectors, demonstrating our capacity to meet and exceed the demanding requirements of specialized industries. **Notable industries served:**

- **Defense & Aerospace-** manufactured precision components for **Raytheon**
- **Electric Power Generation-** supplied components for high stakes energy projects in turbines for **GE**
- **Railroad industry-** produced high performance parts essential to railway infrastructure and rolling stock

#### Advanced Manufacturing Technologies:

Utilizing the latest in CNC programming, 3D printing, and advanced material handling to deliver superior precision and customization.

#### Comprehensive Service Offerings:

Including engraving, polishing, and custom assembly to meet exact client specifications with the highest quality standards.
